Comments...

1. How will Play Like a Champion change your approach to coaching?

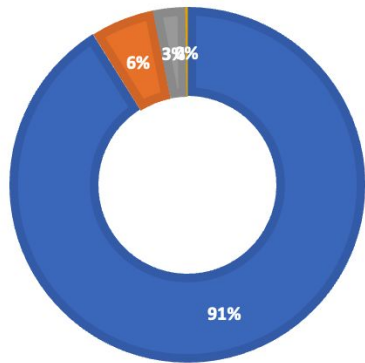

- Using the Sandwich method with Positive comment before corrective comment finished by positive comment.
- Ask more questions rather than instruct only.
- Stay positive all the time.
- Incorporation of spiritual and moral elements into my approach.
- Focus on fun over winning.
- I will definitely pursue a faith-based approach and set realistic goals for the skill set of players I get to coach.
- This clinic helped me clarify some key principles to focus on with the team. For example, making sure the players have fun being an athlete while setting physical, mental and moral goals.
- Like the moral aspects of coaching to help develop the whole person.
- By having a good attitude and have fun
